RIADH SOUISSI

SENIOR REACT / REACT NATIVE DEVELOPER

Essen, Germany · Open to remote / hybrid · Permanent residency, no sponsorship needed

riadhsouissi@gmx.de · linkedin.com/in/riadh-souissi · github.com/Riadh180

PROFILE

7.5+ years building production web and mobile apps across fintech, enterprise SaaS and logistics with React, React Native and TypeScript — and I understand the data behind the interface.

Languages: English fluent (C1/C2) · German advanced (B2/C1) · French native / fluent · Arabic native

EXPERIENCE

BLIGGIT — SENIOR SOFTWARE DEVELOPER

07/2024-01/2026 · Wuppertal

Led the Treuewelt Wuppertal app (React Native / Expo) for Stadtsparkasse Wuppertal, used by tens of thousands of bank customers. Apple Pay & PayPal integration, ~30% faster screen loads, >99% crash-free sessions, weekly releases with zero rollbacks.

- Apple Pay & PayPal integration via Payone
- Lazy loading and navigation improvements: ~30% faster screen loads
- Crash monitoring with Sentry (>99% crash-free sessions)
- CI/CD with GitLab and EAS: weekly releases, zero rollbacks

React Native · Expo · TypeScript · Apple Pay · PayPal

KÜHNE+NAGEL — SENIOR FULL STACK DEVELOPER

11/2023-04/2024 · Hamburg

myKN customer platform for one of the world's largest logistics companies. Vue.js / TypeScript on the front end, Java / Spring behind it; authored the team's Cypress testing guidelines.

Vue.js · TypeScript · Cypress · Java · Spring

ADESSO SE — SENIOR SOFTWARE DEVELOPER

01/2023-07/2023 · Essen

Angular + Electron architecture: found 10+ security vulnerabilities, cut module coupling by ~40% and fixed UI lag.

Angular · Electron · TypeScript

RRI AT E.ON — SOFTWARE DEVELOPER

02/2020-12/2022 · Essen

Enterprise React / TypeScript device-management platform. Co-authored the reference architecture for a 15+ person team, kept test coverage above 80% and mentored juniors.

- Built 12+ form-table components
- End-to-end tests with Cypress and Robot Framework; unit tests with Jest and React Testing Library

React · TypeScript · Jest · React Testing Library

LICHT & SCHATTEN — FULLSTACK REACT / NODE.JS

07/2018-01/2020 · Tunis

MERN web and mobile apps built end to end, including a data-collection platform for ad campaigns.

- Custom React component library
- Native adaptations for iOS and Android
- MongoDB aggregation pipelines and REST APIs

React · React Native · Node.js · MongoDB · Express

FREELANCE — CREATIVE FRONTEND

07/2017-06/2018 · Tunis

Three.js, WebGL / GLSL shaders and GSAP: a 3D product portfolio with custom interactions. This site is the proof I still do this at the highest level: real-time glass, GPU particles and a scroll-driven camera, built with React Three Fiber.

Three.js · WebGL · GLSL · GSAP · React Three Fiber

SKILLS

CORE: React / TypeScript

MOBILE	React Native, Expo, EAS
FRONTEND	Next.js, Vue.js, Angular, Electron
TESTING & QUALITY	Cypress, Jest, React Testing Library, Sentry, CI/CD, Robot Framework
PERFORMANCE	Profiling, Lazy loading, React Profiler, Suspense, react-window, Web Vitals, Lighthouse
CREATIVE DEV	Three.js, WebGL / GLSL, GSAP, Motion
DATA ENGINEERING	Python, SQL, Spark, Kafka, Airflow, dbt, AWS
STATE & DATA	TanStack Query, Jotai, Recoil, GraphQL, REST
REACT PERFORMANCE	useTransition, react-virtualized, Webpack Bundle Analyzer
BACK END	Node.js, Java, Spring, MongoDB
DESIGN & UI	Figma, Zeplin, Atomic Design
TOOLING	Docker, NX Monorepo, Vercel, Jira, Confluence

EDUCATION

DATA ENGINEERING PROGRAMME · NEUE FISCHE / SPICED · 04/2026–08/2026

720 hours / 960 lessons · certified · incl. AWS Certified Data Engineer – Associate exam prep

Python · SQL · Spark · Kafka · Airflow · dbt · Docker · AWS (S3, Glue, Redshift, Lambda)

B.SC. COMPUTER SCIENCE — INFORMATION SYSTEMS 2014

Faculty of Sciences, Monastir, Tunisia
